

**DEPARTMENT OF SPACE  
INDIAN SPACE RESEARCH ORGANISATION  
ISRO PROPULSION COMPLEX**

ISRO PROPULSION COMPLEX (IPRC) is the lead centre of ISRO for Assembly, Integration, Testing of Liquid Propulsion Systems for Indian launch vehicles, in space propulsion systems for Spacecrafts and sensors for propulsion health monitoring. IPRC is responsible for Assembly, Integration, Testing and system engineering of high-performance Space Propulsion Systems employing earth storable, cryogenic propellants, semi-cryogenic, LOX-Methane systems for ISRO launch vehicles and satellites.
